13th International DOCOMOMO Technology Seminar

January, 25th/26th 2013

10. Karlsruher Tagung
„Das architektonische Erbe“

Perceived Technologies
in the

Modern Movement
1918-1975

Technologische Konzepte
in der Moderne

Vorwort Die 10. KARLSRUHER TAGUNG der Reihe „Das Architektonisch Erbe“, diskutiert im internationalen Vergleich anhand ausgewählter Beispiele die Fragen: Welche entscheidende Rolle hat die Technologie für die Architektur? Wie war der Austausch von Ingenieuren und die Auswahl adäquater Materialien und Technologien in den kreativen, interdisziplinären Arbeitsprozess integriert. Die Tagung wird gemeinsam mit dem International Scientific Committee Technology (ISC-T) von Docomomo international veranstaltet.

Preface Based on international examples and expertise the 10. KARLSRUHE CONFERENCE of the series “The architectural heritage” discusses with the questions: How was technology perceived by designing architects? How was the collaboration with engineers and the selection of adequate building materials and systems as a part of the design process. The conference is organised in cooperation with the International Scientific Committee Technology (ISC-T) of Docomomo International.

Guided Tour at Saturday, 26.01.2013

14:30 EXCURSION 1
 KARLSRUHE – Siedlung Dammerstock
 Heritage conservation and energetic renovation of multi-storey dwelling according to actual standards
 Tour Guide: Georg Matzig, Architect, Karlsruhe/Ettlingen

12:15- 14:00 TRANSFER by train Deutsche Bahn Karlsruhe-Frankfurt

14:30 EXCURSION 2
 FRANKFURT – ECB New Building
 Re-use of the Grossmarkthalle / European Central Bank new building by Architects Coop Himmelb(l)au
 Tour Guide: building division of ECB / Public Relations division
 In coordination with architects and structural designers

14:30 EXCURSION 3
 FRANKFURT / HÖCHST – former Farbwerke Höchst AG
 Heritage conservation of the administration building by architect Peter Behrens
 Tour Guide: Heinz Vionsky, Landesdenkmalpflege Hessen, Wiesbaden

16:30 INDIVIDUAL DEPARTURE

Die Tagung wird von der Architektenkammer als Fortbildung anerkannt.

Seminar Program at Friday, 25.01.2013

8:15 am Reception / Registration / Coffee

9:00 am Welcome / Introduction - Alex Dill / Ulrich Nolting

9:15 am Key Note – Horst Persecke - Bollinger/Grohmann Engineers (Frankfurt/Paris/Wien)
 Innovations in Engineering – Big Market Hall, Frankfurt and Centennial Hall, Wrocław

Syntheses

10:00 am Wolfgang Thöner (Dessau)
 Bauhaus Dessau – Laboratory for industrial design

Innovations

10:30 am COFFEE BREAK

11:00 am Jan Molema (Delft)
 New Movement and technology in the Netherlands

Limits

11:30 am Anke Zalivako (Berlin)
 Russian functionalist Constructivism and technology

Transfer

12:00 pm LUNCH BREAK / Buffet at Foyer

1:15 pm Emmanuelle Gallo, Vanessa Fernandez (Paris)
 Le Corbusier – Facade technology and interior comfort

Esprit Nouveau

1:45 pm Danilo Matoso Macedo (Brasilia)
 Engineer Joaquim Cardoso's contribution to Oscar Niemeyer's Architecture.
Nonchalance

2:15 pm Kyle Normandin (Los Angeles)
 Neutra, Eames, Koenig – LA Case Study Houses and life style
Standardisation

2:45 pm Frank Escher (Los Angeles)
 John Lautner – Ideosyncratic architecture

Futuristic Living

3:15 pm COFFEE BREAK

3:45 pm Yamana Yoshiuki (Tokyo)
 Modern Movement Architecture development in an earthquake region
Challenges

4:15 pm Colin Davies (London)
 Foster and Rogers – The start of British High Tech
Prefab Detailing

4:45 pm Christine Kanstinger-Otto (Warmbronn)
 Frei Otto – Executing High Tech concepts

Light Construction

5:15 pm Moderation by Wessel de Jonge (Rotterdam)
 Panel Discussion
